Huawei's Terra Series SST3200-12K-C is a high-performance Data Center Core (DDS) switch engineered for environments demanding extreme throughput and low latency. With its massive storage handling capability and advanced routing engine, it ensures seamless data flow even under peak. Huawei campus switches are ideal for building future-proof campus networks with simplified management, high reliability, and service intelligence, across industries such as enterprises, governments, education, finance, and manufacturing. 1 Product Positioning The S1720 series Ethernet switches (S1720 for short) are next-generation energy-saving 1000M Ethernet switches delivering high performance. The S6720-HI series switches (S6720-HI) are fixed IDN-ready switches with 10GE downlink and 40GE/100GE uplink ports, and are applicable to. Huawei eKitEngine S620-24T16X8Y2CZ is an enhanced fully-managed 10GE switch designed for the small and medium-sized business (SMB) market. It provides a variety of ports, such as GE electrical, 10GE optical, 40GE optical, and 100GE optical, supporting flexible and high-bandwidth network deployment.

S5720-EI series enhanced GE access switches offer 10 GE ports and QoS features to provide low-latency forwarding for enterprise campus networks. [Learn more.](#)

Huawei CloudEngine S16700 series switches (S16700 for short) are next-generation modular core switches designed for high-end campus networks in the fully-wireless era.

[View and Download Huawei S1720 Series product description online.](#) [S1720 Series switch pdf manual download.](#) Also for: [S1720-20gfr-4tp](#), [S1720-28gfr-4tp](#).

Product Overview Huawei S6720-SI series switches are Huawei-developed next-generation multigigabit 10GE fixed switches. The S6720-SI can provide high-speed wireless access, and access for 10GE

Huawei Technical Support

CloudEngine S5736-S Series are switches designed for the Wi-Fi 6 era, featuring 24 downlink ports, four 10 GE uplink ports and one extended slot. [Learn more.](#)

CloudEngine 16800 data center switches are built for the intelligent era, offering large capacity and intelligent O&M, powered by an intelligent engine.

Discover Huawei's S5720H Switch: powerful campus-core switches with 598 Gbps backplane, up to 1,150 W PoE+, routing, and SDN support. Ideal

20-port core switch Huawei

Telecomate.com offers Huawei CloudEngine, Campus and smb ethernet switches, provide high-availability, high-performance networking for large-scale data

Thunder link offers various models of Huawei Ethernet switches and network switches, including the S5720, S6720, S6730, CE6800 and CE12800, designed

RG-CS86-20XS4VS2QXS-D 20-Port 10/2.5GE (SFP+), Layer 3 Ruijie Core/Aggregation Switch with Cloud Management, 4-Port 25/10GE (SFP28), 2-Port 40GE Suitable for small & medium enterprise

S6320-EI Series Next-Generation Enhanced 10 GE Switches The S6320-EI series switches are next-generation 10G box switches. The S6320 can function as an

The S6720-HI series switches (S6720-HI) are fixed IDN-ready switches with 10GE downlink and 40GE/100GE uplink ports, and are applicable to enterprise campus, carrier, university, and

The S5320 series gigabit Ethernet switches are energy-saving switches developed by Huawei to meet the demand for high-bandwidth access and Ethernet multi

It can function as an access switch in an Internet data center (IDC) or a core switch on a campus network. The S6700 has an industry-leading performance and provides up to 24 or 48 line

Product Overview The CloudEngine 12800 (CE12800) series switches are next-generation, high-performance core switches designed for data center networks and high-end campus networks. Using
