

Botswana Fiber Optic Cable Bracket Price Inquiry

Article Overview

Fiber optic cable brackets in Botswana typically range from BWP 150 to BWP 600 per unit, depending on material, size, and supplier.

Price Overview

Fiber optic cable brackets, such as the 3-hoop anchor clamp brackets, are essential for securing aerial fiber installations and are made from materials like galvanized steel, aluminum alloy, or UV-resistant thermoplastic. Internationally, these brackets generally cost between USD 10-40 per unit, which converts roughly to BWP 150-600, depending on the exchange rate and shipping costs.

Factors Affecting Cost

- o Material: Stainless steel or aluminum brackets are more expensive than thermoplastic versions.
- o Design: Multi-hoop or heavy-duty brackets for outdoor installations cost more than simple single-hoop brackets.
- o Quantity: Bulk purchases often reduce the per-unit cost.
- o Supplier and Import Fees: Local availability in Botswana may affect pricing due to shipping, taxes, and distributor margins.

Local Suppliers in Botswana

You can contact local suppliers and distributors for exact pricing and availability:

- o CompuCare - Gaborone, Botswana, offers network cabling and related accessories.
- o Local IT and cabling companies - Listings in Gaborone, Palapye, and other regions provide fiber optic installation hardware.
- o Online regional suppliers - South African suppliers like Southern Elements and MefiberOptic ship fiber optic brackets and clamps, which may be imported into Botswana. For precise pricing, it is recommended to request quotes from multiple local suppliers or distributors, as costs can vary based on material, quantity, and delivery options.
