

Cable tray manufacturer price inquiry in China and Europe

Article Overview

Chinese cable trays generally offer lower prices due to high-volume production and integrated supply chains, while European manufacturers provide higher-cost, high-quality, and standards-compliant solutions.

Chinese Cable Tray Pricing and Suppliers

China dominates global cable tray production, supplying over 60% of the world's cable management systems . Prices are typically lower due to:

- o High-volume manufacturing in industrial hubs like Guangdong, Shandong, and Wuxi, which reduces raw material and logistics costs .
- o Integrated production lines with automated roll-forming, CNC punching, and hot-dip galvanizing, ensuring consistent quality at scale .
- o Factory-direct and OEM options, allowing buyers to customize ladder, wire mesh, perforated, or solid-bottom trays while benefiting from competitive pricing .
- o Material types: Galvanized steel, stainless steel, and aluminum trays are available, with prices varying by thickness, corrosion resistance, and load capacity . Typical price ranges (indicative) for Chinese suppliers:
- o Wire mesh cable trays: \$5-\$15 per meter depending on size and coating .
- o Ladder-type galvanized trays: \$10-\$25 per meter for standard industrial sizes .
- o Perforated or solid-bottom trays: \$12-\$30 per meter, with higher prices for stainless steel or fireproof coatings . Volume discounts are common, and full container orders can significantly reduce per-unit costs. Lead times are generally short due to proximity of steel processing and galvanizing facilities .

European Cable Tray Pricing and Suppliers

European manufacturers focus on high-quality, standards-compliant products (EN 61537, IEC 61537, NEMA, UL), often with stricter environmental and safety certifications. Key characteristics:

- o Higher labor and production costs result in prices typically 30-50% higher than Chinese equivalents.
- o Customization and technical support are included, with precise dimensional tolerances and corrosion-resistant coatings for harsh environments.
- o Material options: Stainless steel, aluminum, and powder-coated steel are common, with specialized trays for food processing, cleanrooms, or outdoor installations. Indicative European price ranges:
- o Wire mesh trays: EUR15-EUR35 per meter.
- o Ladder-type trays: EUR25-EUR50 per meter.
- o Perforated or solid-bottom trays: EUR30-EUR60 per meter, depending on material and finish. European suppliers often provide smaller batch orders with faster compliance documentation, making them suitable for

Cable tray manufacturer price inquiry in China and Europe

projects requiring strict regulatory adherence.

Key Considerations for Buyers

- o Project scale: Large-scale industrial projects benefit from Chinese suppliers' cost efficiency, while smaller, high-spec projects may favor European manufacturers.
 - o Material and coating: Corrosion resistance, fireproofing, and load capacity significantly affect pricing.
 - o Customization: OEM or bespoke designs increase cost but may be necessary for complex installations.
 - o Shipping and logistics: Importing from China adds freight and customs costs, which should be factored into total project budget.
 - o Compliance and certification: European trays often include CE, UL, or RoHS certifications, which may be required for certain projects.
- In summary, Chinese cable trays offer cost-effective, scalable solutions, especially for high-volume industrial applications, while European trays provide premium quality, compliance, and technical support at higher prices. Buyers should weigh budget, project requirements, and regulatory needs when selecting suppliers.

ACE ELECTRIC is one of the most professional cable tray manufacturers and suppliers in China,

The Cable Tray Factory is a premium choice in the Cable Tray category. OEM cable trays are customized for brand specifications,

Our Cable Trays offers exceptional quality within the Cable Tray category. OEM cable trays are customized for brand specifications,

China Cable Tray catalog of High Quality Fiberglass Colored Trunking Zinc Plated Ladder Aluminium Perforated Cable Tray Hot DIP

Cable Trays, Galvanized Cable Tray, Strut Channel manufacturer / supplier in China, offering Hdmann SS304 Stainless Steel Slotted

Cable Tray Market is expected to reach USD 5.4 billion and likely to surge at a CAGR of 2.4% during forecast period

Cable trays include cable trunking, cable ladder, perforated cable tray, wire mesh cable tray and the matching accessories, etc,

The cost of cable tray made in china price is influenced by several factors, including the material used, the type and size of the trays,

Cable tray manufacturer price inquiry in China and Europe

593 suppliers for cable tray Manufacturer/Producer Find wholesalers and contact them directly B2B marketplace Find companies now!

Get Connected with Cable Trays suppliers and wholesalers from China and expand your trade globally with Tradewheel. There are

In China, KDM is prominent composite electrical cable tray manufacturer for 10 years. The use of the most

Source Cable Tray directly from verified Chinese suppliers. Compare prices, check certifications, and order bulk quantities with

China TOP 10 cable tray factory, manufacturer of durable cable trays, including solid bottom, perforated cable tray, cable ladder, and

Discover flame-retardant fibreglass cable trays for efficient wire management, starting at \$1. Ideal for wholesalers and

Professional Wire Cable Tray manufacturer with over 20 years of producing experience. Trustworthy and

Our high quality cable tray products include cable trunking, cable ladder, perforated cable tray, wire mesh
