

Direct supply from Singapore gigabit optical module manufacturer

Article Overview

Singapore offers direct sourcing of gigabit optical modules through manufacturers like FiberTek, Wolon, and other local suppliers, providing competitive pricing, fast logistics, and customization options.

Key Singapore-Based Suppliers

FiberTek is a prominent Singapore-based supplier with over 20 years of experience in fiber optic products, including patch panels, cables, SFP modules, media converters, and test equipment. They provide solutions suitable for industrial, railway, airport, and data center applications, with products designed for durability and high performance in harsh environments . FiberTek also offers armoured patch cords, breakout kits, and fusion splicing tools for professional installations. Wolon operates factories in Wuhan, China, but serves Singapore businesses directly, offering factory-level pricing for SFP modules and optical transceivers. They provide fast air freight to Changi Airport (3-5 days), OEM customization, and pre-coded modules compatible with specific switches like HP Aruba . Direct sourcing from Wolon can reduce costs by up to 50% compared to local retail prices while maintaining Tier-1 manufacturing quality. Other notable suppliers include Starview Technologies, FIBERSTAMP, and Sky PFM Limited, which provide high-speed optical modules, DWDM equipment, and RF optical transceivers. These companies offer bulk purchasing, reinforced and waterproof patch cords, and a wide range of single-mode and multi-mode SFP/GBIC/XFP modules suitable for gigabit networks .

Advantages of Direct Supply

- o **Cost Efficiency:** Bypassing local distributors reduces markups and import tariffs, especially under trade agreements like RCEP for China-Singapore transactions .
- o **Fast Logistics:** Air freight from nearby factories or local Singapore manufacturers ensures delivery within a few days, minimizing project delays .
- o **Customization & OEM:** Suppliers can pre-code transceivers, print client logos, and provide modules compatible with specific networking equipment .
- o **High-Quality Standards:** Singapore-based suppliers adhere to international standards, offering durable, high-performance optical modules suitable for industrial and commercial applications .

How to Proceed

- o Identify the type of gigabit optical module required (SFP, SFP+, BiDi, CWDM, etc.) and transmission distance.
- o Contact suppliers like FiberTek or Wolon with specifications for a factory-direct quote.
- o Discuss OEM/customization needs if modules must be pre-coded or branded.
- o Confirm lead times and shipping options to ensure timely delivery for your project. By sourcing directly

Direct supply from Singapore gigabit optical module manufacturer

from Singapore manufacturers or their regional factories, businesses can achieve competitive pricing, reliable supply, and tailored solutions for gigabit optical networking projects.

FS gigabit ethernet transceiver solutions provide fibre or copper options including 1000BASE-SX, 1000BASE-LX/LH, 1000BASE-T

Buy Fibre Optic Transceiver Modules. element14 Singapore offers fast quotes, same day dispatch, fast delivery, wide inventory,

FS offers a growing portfolio of optical transceivers, with speed range from 100M, 1G, 10G, 25G, 40G, 50G, 100G, 200G, 400G to

Buy Fiber Optic Cable. element14 Singapore offers fast quotes, same day dispatch, fast delivery, wide inventory, datasheets &

Starview is a manufacturer that specializes in high-speed communications infrastructure, offering a range

Fiber optics play a central role in enabling fast, secure, and interference-free data transmission. As one of the leading fiber optic

Buying SFP modules in Singapore? We compare local distributors (RS, FiberTek) vs factory-direct sourcing. Learn how to cut costs

We manufacture optical transceivers and high-speed copper cables in-house, from legacy links to 1.6T, giving

Usage of SFP Optical Modules To correctly use an SFP gigabit optical module, follow these professional steps:

Fibre optic cables Companies in Singapore | Find Fibre optic cables Suppliers Quick links: Global Suppliers Importers Exporters

Pearlyond Technologies Singapore is a leading fiber optic supplier specialize in manufacturing and sales of fiber optic patch cords

In the ever-evolving world of telecommunications and high-speed data transmission, fiber optic cables are the

FiberTek provides fiber optic cables, fiber patch panel, fiber optic test equipment, fiber media converters and other fiber optic

Direct supply from Singapore gigabit optical module manufacturer

Founded in 2011, Connectlab Pte. Ltd. is a Singapore-based company that specialises in the distribution of cabling products Here at

GLC LH SM GLC LH SM is a SFP fiber optic transceiver working at 1300nm wavelength, GLC LH SM could use with both multimode

The company specializes in the manufacturing and distribution of various cables, including fiber optic cables, as well as cable
