

Does Huijue Technology produce optical fiber cables

Article Overview

Yes, Huijue Technology produces optical fiber cables along with a range of optical communication products.

Huijue Technology, also known as Shanghai Huijue Network Communication Equipment Co., Ltd, is a professional manufacturer specializing in telecom and network communication equipment. Their product portfolio includes optical fiber cables, indoor and outdoor optical fibers, flexible cables, butterfly cables, remote optical cables, and both single-mode and multi-mode fibers (G.652, G.657a2, OM1-OM4) as well as optical fiber connectors, patch cords, and splitters .

Manufacturing Capabilities

The company operates a mass production factory in Jiangsu province for assembly of optical fiber products and telecom cabinets, supported by an R&D center and technical facilities in Shanghai . Their production includes fiber optic distribution frames, joint closures, optical transceivers, couplers, and adapters, demonstrating a comprehensive capability in optical communication hardware .

Market and Applications

Huijue Technology exports its products to Europe, North America, Southeast Asia, and other regions, serving telecom operators, data centers, and network infrastructure projects . Their optical fiber cables and related components are used in FTTH (Fiber to the Home), FTTB (Fiber to the Building), and FTTN (Fiber to the Node) deployments, supporting high-speed broadband and network expansion .

Summary

In addition to optical fiber cables, Huijue Technology provides integrated solutions for network communication, including outdoor cabinets, splitter boxes, and energy storage equipment rooms. Their extensive product line and manufacturing infrastructure confirm that optical fiber cable production is a core part of their business .

Founded in 2002, Huijue Network is a high-tech service provider integrating intelligent network

The company is mainly committed to the large-scale production and large-scale application of Optic Fiber Connector and PLC
