

Article Overview

Staalbouw Dijkstra and Gouda Holland are leading Dutch manufacturers of aluminum cable trays, offering a wide range of cable management solutions.

Staalbouw Dijkstra

Staalbouw Dijkstra produces and supplies cable trays in aluminum, stainless steel, and steel, catering to various industrial and commercial applications across the Netherlands. They offer trays in multiple formats and sizes, ensuring fast delivery and customization options for specific project requirements. Their aluminum trays are suitable for lightweight installations and provide corrosion resistance, making them ideal for indoor and outdoor use.

Gouda Holland

Gouda Holland specializes in light-duty and medium-duty cable ducts and trays, including aluminum options. Their systems feature continuous longitudinal slot perforations for EMC compliance and can be fully enclosed with covers and fasteners. The trays are designed for industrial, marine, and machine-building applications, with spans ranging from 3 to 6 meters for flexible installation. Gouda Holland is part of the Niedax Group, which ensures high-quality standards and international support.

Niedax Group

The Niedax Group offers a comprehensive portfolio of cable management systems, including aluminum, steel, PVC, and GRP trays. Through its Dutch subsidiary, Gouda Holland, the group provides full-service solutions, including planning, technical consulting, and installation support for complex projects. This makes them a reliable partner for both domestic and international projects requiring aluminum cable trays.

Summary

For Dutch aluminum alloy cable trays, Staalbouw Dijkstra and Gouda Holland (Niedax Group) are the primary manufacturers. They provide a variety of tray types, sizes, and accessories suitable for industrial, commercial, and marine applications, with options for both open and fully enclosed systems. These companies also offer technical support and fast delivery within the Netherlands.
