Our FC fiber optic attenuators are UPC and APC types, FC fiber attenuators are Low Polarization Dependent Loss and a stable and independent wavelength distribution. Basic types of fixed attenuation include single mode, dual window and multimode in D4/PC, FC, FC/UPC, MU, SC, SC/APC and UPC, ST and ST/UPC style connectors. Available in fixed (FC, SC, LC housing) and variable (stepwise or continuously. Newport's Single-Mode Fixed Fiber Optic Attenuators offer low return loss, high mode stability and a variety of attenuation values: 3, 5, 10, 15 and 20 dB. F-ADAT-13-03-55 Fiber Optic Attenuator, Fixed, 1310 nm, 3 dB, FC/APC Connector. Use the filters on the left of the page to find the product you require.

These versatile in-line attenuators are the perfect solution for attenuating

FC/APC Fiber optic Attenuator, Male to Female, 1~25dB attenuator, or fiber optic attenuator, is a device used to reduce the power level of an optical

The Clip-On Variable Fiber Optic Attenuator is a completely passive device, which works by physical attenuation of a 3mm jacketed singlemode cable. It may also be used with smaller jacket sizes.

Fiber Optic Attenuator is used in fiber optic communications. Sinooptic offers FC, SC, ST, and LC Multimode Fixed Fiber Optic Attenuator with High power light

Shop DigiKey's large in-stock selection of Fiber Optic Attenuators. View inventory, pricing and order now for same day shipping!

FS fixed and variable fiber optic attenuators with leading attenuating fibers guarantee consistent and stable fiber attenuation (0~60dB) in WDM transmission.

The building of green fc optical attenuator guarantees the best performance using certain materials. Usually composed of silica glass or plastic, optical fibers are selected for their purity and effective

Optical attenuators are mainly used in fiber optic to debug optical power performance & optical instrument calibration correction & fiber signal attenuation

1~30dB Single Mode Attenuator FC/UPC/APC Type 1260 To 1620nm Wavelength 1~30dB FC/UPC/APC Type 1260 to 1620nm Wavelength Singlemode Attenuators Variable Fiber Optic Attenuator Product

Shop high-quality 1 fiber optical attenuators from reliable suppliers. Precision and durability for various

FC fiber optic attenuator models

applications. Buy now for reliable performance!

Packaging Details plastic zip bag and carton Material Attenuation Fiber Connector Type LC, SC, FC Interface Polish APC/UPC Attenuation Value 1-30 dB Brand Name Geehe or OEM Model Number

1525-1570nm MEMS Variable Optical Attenuator Single Channel Standard FC/UPC The MEMS Variable Optical Attenuator is based on Micro-Electro-Mechanical System technology. These MM series

The FC fiber attenuator features high power endurance and low back reflection. They are used to reduce the optical power in the fiber optic links. Applications of the FC fiber optic attenuators include CATV

Available in several options, including single-mode fiber, multimode fiber, duplex fiber, simplex or duplex single-mode fiber cables, our fiber optic cable assemblies utilize the most widely used connectors

Available in fixed (FC, SC, LC housing) and variable (stepwise or continuously adjustable) formats, they offer accurate, low-loss attenuation from 1 dB to 30 dB.

We supply FC fiber optic attenuators from 1dB to 30dB. Our FC fiber optic attenuators are UPC and APC types, FC fiber attenuators are Low Polarization
