

Article Overview

A waterproof indoor small distribution box is a compact, IP65-rated enclosure designed to protect circuit breakers and electrical components from dust and moisture while allowing easy indoor installation.

Key Features

IP65 Protection: Most indoor waterproof distribution boxes, such as the MOLLOM 2-way or CHRI surface-mounted models, offer IP65 rating, ensuring protection against dust and water splashes, making them suitable for wet rooms, workshops, or indoor commercial spaces .

Material Quality: These boxes are typically made from high-quality ABS or PC plastic, providing durability, corrosion resistance, and flame retardancy. Transparent covers are common, allowing visual inspection of circuit breakers without opening the box .

Compact Design: Small distribution boxes are available in 1-5 module configurations or more, with options for single, double, or triple layers. Compact models like the AT Series or EKDB10 series are ideal for tight indoor spaces while maintaining organized wiring .

DIN Rail Compatibility: Many indoor boxes support DIN rail mounting, allowing easy installation of miniature circuit breakers (MCBs) and other modular components. This ensures neat wiring and flexibility for future expansion .

Ease of Installation: Surface-mounted designs with pre-fabricated cable entries on all sides simplify wiring. Some models include lockable covers for added safety and security .

Temperature and Safety Ratings: Indoor waterproof boxes can typically withstand temperatures from -25°C to +90°C, comply with IEC standards, and are halogen-free and CE-compliant, ensuring safe operation in residential or commercial environments .

Recommended Options

- o MOLLOM 2-Way MCB Distribution Box: IP65, transparent cover, suitable for home, workshop, or hotel indoor use, supports 5/8 ways circuit breakers .
- o CHRI Surface-Mounted Distribution Box: IP65, 1 row, 5 modules, ABS material, lockable cover, suitable for wet rooms and indoor installations .
- o EKDB10 Series: IP65, PC plastic, available in 4-39 ways, single/double/triple layers, ideal for industrial, commercial, and photovoltaic indoor applications .
- o SinoBreaker AT Series: Compact, DIN rail compatible, IP65-IP68, suitable for tight indoor spaces with

Indoor Waterproof Small Distribution Box

straightforward cabling .

These options provide reliable protection, easy installation, and long-term durability for indoor electrical distribution needs. When selecting a box, consider the number of modules, DIN rail requirements, and the specific indoor environment to ensure optimal safety and functionality.

IP65 waterproof: the protection class IP65 protects the fuses from environmental influences such as dust and moisture, and can

Product name: Distribution protection box (design of 8 ways circuit breakers) Material: The shell is made of ABS plastic, the cover is

With a waterproof design and double sealing mechanism, this distribution box

12 Way Circuit Breaker Box, Waterproof Distribution Protection Box | IP65, DIN Rail, ABS Plastic, Electrical Breaker Box Enclosure,

IP65 waterproof distribution box for outdoor installs. Plastic ABS/PC, DIN-rail ready, clean wiring,

High-quality materials: surface-mounted distribution box made of ABS resin, good toughness, transparent window is made of PC

Each enclosure delivers dependable IP65-IP68 sealing for outdoor and industrial use, with options for

The WHA Series electrical power distribution box is a waterproof IP65 board designed for dependable field

3 Way Mini Breaker Box MCB Distribution Protection Box with DIN Rail, Waterproof,for Miniature Circuit Breaker, Electrical Box for

The distribution box has IP66 waterproof grade, allowing indoor and outdoor installation, and can be used in severe weather

PJERJZN Distribution Protection Box 4 Way Outdoor Breaker Box with Bus Bars and Din Rail for Miniature Breaker Waterproof IP66

Durable IP65 Waterproof Design: Made of high-quality ABS, PC, and PA66 materials, this outdoor distribution box is

The WPN Waterproof Distribution Box is a surface-mount enclosure using a rigid ABS body with a smoked

Indoor Waterproof Small Distribution Box

Protect your electrical circuits with the HT Series Waterproof Distribution Box. Built from durable ABS plastic with a clear lid, this IP65

Browse power distribution boxes with circuit breaker protection and multiple outlet configurations. Shop durable solutions for
