This interactive submarine cable map shows global undersea and underwater fiber optic cables connecting continents and countries worldwide. Explore cable routes, landing stations, system status and infrastructure updates. Use the controls at the top to play the animation or step through year by year. Browse all 705 submarine cables alphabetically. Analyze network nodes within a 10 km radius using our automated API service. RAG-powered chatbot with. Internet Exchange Point -- neutral facility where networks interconnect and exchange traffic. Point of Presence --. Projects such as SEA-ME-WE (Southeast Asia - Middle East - Western Europe) and FLAG (Fiber-Optic Link Around the Globe) established intercontinental fiber-optic routes, bridging entire regions with high-speed data links.

The map instead aims to provide a global overview of the network, and a general sense of how information traverses our planet. (The

View information about key internet infrastructures including fiber optic submarine cable systems, terrestrial fiber networks, internet

This interactive submarine cable map shows global undersea and underwater fiber optic cables connecting continents and countries

Explore the physical backbone of the internet with our interactive map of undersea fiber optic cables,

An all-new interactive map of the Internet, showing the evolution of undersea cables and internet exchanges with year

This regularly updated interactive map shows submarine fiber-optic cable systems around the world, both current and

Map of Submarine Cables - Global Internet & Undersea Cable Routes This map of submarine cables provides an overview of global

Fiber maps visualize the global network of fiber optic cables, showcasing how data moves across continents and under oceans.

Interactive map of submarine cable landing points worldwide. Explore connectivity, resilience, and topology of the global undersea

International Optical Cable Route Map

Explore The World Fiber internet availability and speeds. See where The World Fiber offers service and

The interactive map lets you explore cable routes visually - tracing how data travels from continent to continent, which coastal cities

Longhaul Network Maps 10 Comments On this page and its children, I collect links to intercity network maps from

Cables shown include international and US domestic submarine cables with a maximum upgradeable capacity of at

TeleGeography's interactive submarine cable map shows the majority of active and planned international submarine

Free, open-source, interactive 3D map of the world's terrestrial fiber optic networks. Browse routes, IXPs, data centers, and landing

From route selection, cable manufacturing, and specialized cable-laying ships; it's all incredible. Even more normal
