

Article Overview

Fire-rated cable trays in Malta can be procured through public tenders on e-PPS or publictender.mt, or directly from local suppliers like Brownrig and FBP Malta.

Public Procurement Portals

o e-PPS (Electronic Public Procurement System): This is Malta's official platform for all public procurement procedures, including works, services, and supplies. Tenders for fire-rated cable trays issued by government entities are published here, ensuring transparency, security, and compliance with Maltese procurement regulations. Suppliers can register, submit tenders, and track contract awards through the portal.

o MITA Procurement: The Malta Information Technology Agency (MITA) manages its own procurement procedures under the Public Procurement Regulations. All tenders, including those for electrical supplies like cable trays, are published on the e-PPS portal, and contracts may also appear in the Official Journal of the European Union if above EU thresholds.

o publictender.mt: This platform provides free access to Maltese and EU public procurement notices. It allows suppliers to monitor tenders for fire-rated cable trays, receive daily updates, and track opportunities across Malta and the EU.

Local Suppliers

o Brownrig Supplies Direct Ltd.: Offers galvanised steel cable trays suitable for electrical installations, with storage and distribution facilities in Malta's harbour area, supporting trade and industry projects.

o FBP Malta: Supplies cable trays and mesh trays for electrical installations, which may include fire-rated options suitable for commercial and industrial projects.

Procurement Tips

o Check tender notices regularly on e-PPS and publictender.mt to identify upcoming opportunities for fire-rated cable trays.

o Ensure compliance with Maltese Public Procurement Regulations, including non-discrimination and transparency requirements.

o Verify product specifications, including fire rating standards, material type (galvanised steel, aluminium), and load capacity, to meet project requirements.

o Consider direct supplier engagement for sub-threshold or private sector projects, which may not appear on public portals. By combining official tender monitoring with local supplier contacts, businesses can efficiently source fire-rated cable trays in Malta while remaining compliant with procurement regulations.
