

Article Overview

10G switches in Nepal are available from multiple distributors and online stores, including models like HSGQ-5912 and RG-S2910C-48GT2XS-HP-E, suitable for enterprise and high-performance networks.

Key 10G Switch Models in Nepal

- o HSGQ-5912: A 12-port 10G SFP+ Layer-3 managed industrial switch. It supports advanced QoS, VLAN functions, and strong security policies, making it ideal for enterprise, campus, hotel, ISP, and office networks (D-TECH TRADING) .
- o RG-S2910C-48GT2XS-HP-E: A 10G network access switch with high capacity, suitable for large-scale enterprise deployments in Nepal (FirstAid Nepal) .

Distributors and Online Stores

- o Network Store Nepal: Offers a variety of 10G and Gigabit switches, including Cloud Router Switch and Cloud Smart Switch series with multiple port configurations and PoE options .
- o Daraz.com.np: Provides a wide selection of 10G switches online with competitive pricing and delivery options across Nepal .
- o InfraSoft Solutions: Supplies enterprise networking solutions including brands like Ruijie, Reyee, and Cambium, which include 10G-capable switches for professional deployments .

Features to Consider

When selecting a 10G switch in Nepal, consider the following:

- o Port Type and Count: SFP+ ports for fiber connectivity or 10G Ethernet ports for copper connections.
- o Layer-3 Management: Enables routing, VLAN segmentation, and advanced network management.
- o QoS and Security: Important for enterprise networks to prioritize traffic and enforce policies.
- o PoE Support: Useful if powering devices like IP cameras or access points directly from the switch.
- o Scalability: Ensure the switch can handle future network growth and higher bandwidth demands.

Conclusion

Nepal offers a variety of 10G switches suitable for different networking needs, from small office setups to large enterprise and campus networks. Models like HSGQ-5912 and RG-S2910C-48GT2XS-HP-E provide high performance with Layer-3 management, while distributors like Network Store, Daraz, and InfraSoft Solutions make these switches accessible for purchase locally. Choosing the right switch depends on your port requirements, management features, and network scale.
