

New Zealand 1U Cable Management Stand 800mm Depth Order

Article Overview

You can order a 1U cable management panel or tray with 800mm depth in New Zealand from suppliers like StarTech and Schneider Electric.

StarTech 1U Cable Management Panel

The StarTech 1U server rack cable management panel is designed to organize cables efficiently in a 1U rack space. It features five D-ring hooks and four pass-through holes to route cables vertically and horizontally, reducing tension on equipment ports and improving airflow in your server rack. This panel is low-profile but provides ample cable management for network and server setups. Power cables may not fit through the holes, so it is best suited for data or patch cables. Fast shipping is available in New Zealand, and it can be purchased online or in-store at Rubber Monkey in Wellington .

Schneider Electric ER7DCM Easy Rack Cable Manager

The ER7DCM Easy Rack Cable Manager from Schneider Electric is a 1U in-depth cable management solution. It is designed for professional rack installations and emphasizes sustainability, using materials aligned with RoHS directives and recyclability standards. This product is suitable for organizing cables in server racks while maintaining a clean and safe setup .

StarTech Under-Desk Cable Tray (Optional)

If you are looking for a tray-style solution rather than a panel, the StarTech under-desk cable management tray measures 800mm in length, 105mm in width, and 207mm in height. It is adjustable to fit different desk sizes and provides extra space for power adapters or strips. All necessary hardware for installation is included .

Where to Order

- o StarTech 1U Panel: Available at Rubber Monkey NZ with fast shipping and in-store pickup options .
- o StarTech CMBRUSH1U Horizontal Panel: Available at element14 New Zealand, offering same-day dispatch and technical support .
- o Schneider Electric ER7DCM: Available through Schneider Electric New Zealand online store .
- o Cable trays: Available at RS Online NZ for under-desk or rack-mounted setups . When ordering, ensure the 1U height and 800mm depth match your rack or desk requirements. Consider whether you need D-ring hooks, pass-through holes, or a tray depending on the type and volume of cables you plan to manage.
