

Article Overview

Brilltech Engineers and Jeetmull Jaichandlall (P) Ltd. are leading manufacturers of galvanized ladder cable trays in Papua New Guinea, offering durable, customizable, and corrosion-resistant solutions.

Key Manufacturers

1. Brilltech Engineers Pvt. Ltd. Brilltech Engineers is a prominent manufacturer and supplier of galvanized ladder cable trays in Papua New Guinea. Their products are designed for long-term durability, corrosion resistance, and safe cable management. They offer custom-based solutions to meet specific project requirements, including various sizes and configurations. Brilltech's in-house manufacturing unit uses modern machinery and precision tools to ensure high-quality production. They also supply related electrical components such as LT distribution panels, power control panels, and electrical transformers, making them a comprehensive provider for electrical infrastructure projects in the region . 2. Jeetmull Jaichandlall (P) Ltd. Jeetmull Jaichandlall is recognized for producing high-quality galvanized cable trays with excellent finishing and adherence to industry standards. Their trays are available in multiple sizes, shapes, and colors, and the company emphasizes customization to meet industry-specific demands. They maintain a modern manufacturing facility with advanced technology and expert supervision to ensure consistent quality. Their products are suitable for heavy-duty applications, resistant to impact, and capable of withstanding wear and tear over time .

Product Features

- o Material: Galvanized steel for corrosion resistance and long-term reliability
- o Design: Ladder-style trays with rounded edges for safety and easy cable routing
- o Customization: Available in various sizes, shapes, and configurations to suit project needs
- o Durability: Resistant to environmental factors, abrasion, and physical impact
- o Installation: Pre-punched holes for easy assembly and future expansion

Applications

Galvanized ladder cable trays are widely used in:

- o Electrical and power distribution systems
- o Data and fiber optic cable management
- o Industrial and commercial installations
- o Environments requiring corrosion-resistant and heavy-duty cable support
