

Article Overview

Cold storage electrical distribution box parts typically range from GBP3 to over GBP700, depending on the component and supplier.

Pricing Overview

Cold storage electrical parts vary widely in price based on type, function, and supplier. For example, UK Cold Room Spares lists prices for individual components as follows:

- o Junction boxes: GBP49.14-GBP105.56 EX. VAT
 - o Heater tape: GBP47.71-GBP60.87 EX. VAT
 - o Transformers: GBP303.46-GBP710.40 EX. VAT
 - o Alarm buttons and small accessories: GBP3.00-GBP108.78 EX. VAT
- These prices reflect standard retail rates for individual parts in the UK market .

Bulk and Wholesale Options

For larger orders or specialized components, suppliers like Alibaba and Global Sources offer bulk purchasing options:

- o Cold room electric boxes: Available in quantities of 1k+ units, with prices varying based on material (polycarbonate, ABS), IP rating, and included electrical components .
- o Power distribution boxes: Wholesale catalogs list over 50 models with factory-direct pricing, suitable for large-scale cold storage installations .

Factors Affecting Price

- o Material and durability: Polycarbonate or ABS enclosures designed for sub-zero conditions are more expensive than standard plastic boxes .
- o Functionality: Control boxes with PLCs, digital thermostats, or remote monitoring modules cost more than simple junction boxes .
- o Voltage and connectivity: Units compatible with 230V/400V systems or networked monitoring may carry a premium .
- o Shipping and import costs: International suppliers may offer lower unit prices but include additional shipping and customs fees.
