

Price of Fiber Optic 360 Router

Article Overview

360 Fiber Optic Routers typically range from \$200 to \$400 depending on the model and features.

Product Overview

The 360 WiFi system is designed for fiber-optic internet connections, offering Wi-Fi 7 technology for high-speed, low-latency performance suitable for streaming, gaming, and smart home devices . The system includes a SmartNID (the internet entry point) and a Wi-Fi pod, which can be expanded with additional pods for larger homes or complex layouts. It supports seamless coverage up to 3,500 sq. ft. per pod and automatically optimizes bandwidth for connected devices .

Key Features

- o Wi-Fi 7 support for speeds up to multi-gigabit levels, ideal for fiber internet plans .
- o Mesh network capability: multiple pods can be added to extend coverage.
- o Security: built-in firewall, IoT protection, and parental controls accessible via an app .
- o Smart optimization: the system adapts to usage patterns and updates automatically.

Price Range

While exact pricing varies by retailer and region, similar Wi-Fi 7 mesh routers for fiber internet typically cost:

- o Single-pod systems: \$200-\$300
- o Multi-pod systems: \$350-\$400 or more for larger coverage areas Retailers like Amazon and specialized fiber providers may offer bundles or promotions, which can affect the final price .

Considerations

- o Ensure your fiber internet plan supports the router's maximum speeds to fully utilize Wi-Fi 7 capabilities .
- o For homes larger than 3,500 sq. ft., consider adding extra pods for consistent coverage.
- o Compare features like LAN port speed, number of devices supported, and security options when evaluating alternatives. In summary, a 360 fiber optic router is a high-performance, future-proof option for fiber internet users, with prices generally ranging from \$200 to \$400 depending on configuration and retailer.
