

Price of Optical Cable Splice Box Rubber Ring

Article Overview

The price of a rubber ring for an optical cable splice box varies depending on size, material, and supplier, typically ranging from a few dollars to over \$10 per piece.

Overview

Rubber rings in optical splice boxes are critical sealing components that ensure the enclosure is waterproof and dustproof, maintaining the integrity of spliced fiber optic cables . They are commonly used in outdoor splice closures, including overhead, manhole, and pipeline installations, and are designed to meet IP68 sealing standards . The rubber ring fits inside the splice closure to prevent moisture and contaminants from entering the box.

Factors Affecting Price

- o Size and Diameter: Different splice boxes require rubber rings of varying diameters and thicknesses. Larger enclosures or multi-cable closures may need bigger or multiple rings.
- o Material Quality: High-quality silicone or EPDM rubber rings offer better durability and resistance to UV, temperature, and chemical exposure, which can increase the cost.
- o Supplier and Brand: Prices vary between manufacturers and distributors. Companies like Fibconet, LAPP, and EFB-Elektronik provide these components, sometimes as part of a full splice closure kit .
- o Quantity Purchased: Buying in bulk often reduces the per-unit cost.

Purchasing Options

- o Online marketplaces like Amazon or Made-in-China offer individual rubber rings or kits, but prices are often listed per enclosure rather than per ring .
- o Specialized distributors such as LAPP or EFB-Elektronik provide rubber rings as part of splice box accessories, and they can supply custom sizes or pre-assembled kits .
- o Direct manufacturer orders may allow for bulk pricing and customization, especially for large-scale fiber optic projects .

Recommendation

To obtain an accurate price, it is best to contact suppliers directly with the specific splice box model and quantity required. This ensures compatibility and allows for quotes that reflect current market conditions and shipping costs.
