

Price quote for Mongolian cable trays 200

Article Overview

The estimated cost for 200 Mongolian cable trays ranges from \$15,000 to \$25,000 depending on size, material, and finish, excluding transportation.

Pricing Overview

Cable trays are typically made from mild steel, galvanized steel, or aluminum, with finishes such as epoxy paint or zinc coating for corrosion resistance . For example, a 200mm wide, 2.44m long mild steel tray with epoxy coating is available from suppliers like Edaran, with pricing provided upon request but generally excluding delivery fees . Galvanized steel trays are also widely used and may have slightly higher costs due to corrosion protection .

Estimating Cost

Based on typical supplier pricing:

- o Mild steel, epoxy-coated trays (200mm x 2.44m): Approx. \$70-\$120 per tray depending on gauge and finish .
- o Galvanized steel trays: Slightly higher, around \$80-\$130 per tray .
- o For 200 trays, this translates to an estimated \$14,000-\$26,000, excluding shipping or import duties.

Additional Considerations

- o Delivery and transportation: Most suppliers quote prices without transport, so contacting the supplier for shipping to Mongolia is necessary .
- o Accessories: Coupler plates, bends, and junctions may be required for installation, adding to the total cost .
- o Supplier contact: For a formal quotation, you can reach suppliers like Edaran at 03-79800398 or request a customized quote from MetalEgypt or Indian manufacturers .

Recommendation

To obtain an accurate and binding price quote, provide the supplier with:

- o Quantity (200 trays)
- o Dimensions (width, length, thickness)
- o Material preference (mild steel, galvanized, aluminum)
- o Finish (epoxy, zinc, or powder coating)

Price quote for Mongolian cable trays 200

o Delivery location in Mongolia This ensures the supplier can include transportation, taxes, and any additional accessories in the final quotation.
