

Article Overview

You can find ATEX and IECEx-certified explosion-proof electrical distribution boxes in Qatar from suppliers like Bushtorm, Nassguard, and Electron Qatar, serving industrial zones including Doha, Ras Laffan, Mesaieed, and Al Khor.

Key Suppliers and Products

1. Bushtorm Bushtorm offers a wide range of explosion-proof products, including Flameproof Ex d Envirobox(R) junction boxes, panel enclosures, and intrinsically safe enclosures. These are made from reinforced engineering polymer or stainless steel, providing corrosion resistance, IP66/68 protection, and compliance with ATEX, IECEx, EN, and SANS standards. They are suitable for Zones 1, 2, 21, and 22, and designed for harsh environments in oil, gas, petrochemical, and offshore applications . Bushtorm serves Doha, Ras Laffan, Mesaieed, and Al Khor. 2. Nassguard Nassguard supplies ATEX-certified explosion-proof enclosures for electrical and instrumentation equipment. Their products are designed to contain internal explosions and prevent ignition of surrounding atmospheres, making them ideal for hazardous zones in oil, gas, marine, and petrochemical industries. They offer customizable enclosures with reinforced doors, lockable latches, and multiple cable entry options . 3. Electron Qatar Electron Qatar provides Crouse-Hinds series C30 and C31 duct outlet boxes, approved for Zones 1, 2, 21, and 22. These IECEx-certified boxes are made from light alloy with IP67 protection, designed for acetylene, hydrogen, and other hazardous gases. They feature bevel gear hubs, neoprene O-ring seals, and integrated core bushings for safe conductor handling . 4. Qatar Oil and Gas Directory This directory lists multiple suppliers of hazardous area electrical equipment, including explosion-proof junction boxes, control stations, cable glands, and distribution boards. Products are ATEX/IECEx certified and suitable for industrial and hazardous environments .

Considerations When Choosing Explosion-Proof Boxes

- o Certification: Ensure ATEX or IECEx compliance for your specific hazardous zone.
- o Material: Stainless steel or corrosion-resistant aluminum for durability.
- o Ingress Protection: IP66/67/68 ratings for dust and water resistance.
- o Customization: Cable entry options, lockable doors, and panel configurations.
- o Application: Match the box to the zone classification (Zone 1, 2, 21, 22) and environmental conditions. By contacting these suppliers, you can obtain technical specifications, pricing, and delivery options for explosion-proof electrical distribution boxes suitable for Qatar's industrial sectors.
