

Which Italian manufacturer makes the best high-quality galvanized cable trays

Article Overview

Schiavetti Tekno, part of Spina Group, is a leading Italian manufacturer of galvanized cable trays.

Schiavetti Tekno (Spina Group)

Schiavetti Tekno, under the Spina Group, has been producing high-quality cable trays since 1964. Their product range includes galvanized steel cable trays, stainless steel trays, and wire-mesh trays, available in ladder, perforated, closed-bottom, and wire-mesh types. These trays are designed for strength, corrosion resistance, and long-term performance in industrial, energy, and infrastructure projects. They also offer custom sizes and compatibility with Unistrut systems, ensuring flexibility for complex installations. All products comply with European (EN) and international (UL) standards and are supported by technical design and after-sales assistance (Web result).

FEMI-CZ

FEMI-CZ specializes in metallic cable tray systems for both industrial and civil installations. Their galvanized steel trays include solid-bottom, perforated, ladder, and mesh types, suitable for large plants, energy, transport, and oil & gas sectors. FEMI-CZ emphasizes customized solutions, high load capacity, and ease of installation, making them a reliable choice for demanding environments (Web result).

Zamet SpA

Zamet is another prominent Italian manufacturer offering fully customizable cable tray systems, including ladder, wire-mesh, and solid-bottom trays. Their products are designed for excellent load capacity and corrosion resistance, serving both civil and industrial applications. Zamet has over 40 years of experience in design and production, ensuring high-quality solutions tailored to customer needs (Web result).

SATI Italia

SATI Italia produces robust and flexible cable carrier systems, including galvanized trays. Their modular systems allow for customization and are widely used in energy, construction, and automation sectors. SATI's products comply with international safety and quality standards, offering durability and ease of assembly (Web result).

Choosing a Manufacturer

When selecting a manufacturer, consider:

Which Italian manufacturer makes the best high-quality galvanized cable trays

- o Material quality: Galvanized steel for corrosion resistance.
- o Customization options: Ability to meet specific project requirements.
- o Certifications: ISO, CE, and compliance with EN/UL standards.
- o Industry expertise: Proven track record in industrial or infrastructure projects.
- o After-sales support: Technical assistance and installation guidance. For a well-known Italian manufacturer of galvanized cable trays, Schiavetti Tekno (Spina Group) is widely recognized for its quality, innovation, and extensive experience, making it a top choice for industrial and infrastructure applications.
