

Which manufacturer produces cable trays for North Korea

Article Overview

Cable House is a recognized manufacturer providing custom-made cable trays and related solutions in North Korea.

Key Manufacturers

Cable House has been active since 1983 and is noted for manufacturing a wide range of cable management products, including custom cable trays, hose clamps, cable ties, and industrial connectors. They offer tailored solutions to meet specific client requirements, emphasizing high durability, reliable performance, and long service life. Their team of skilled professionals ensures that products are customized according to client specifications, and they maintain a presence in multiple locations to facilitate orders and support in North Korea . Other international manufacturers that produce custom cable trays and may provide solutions for specialized markets include:

- o MIL-KABEL-SYSTEMS GmbH: Focuses on high-quality cable systems and connection solutions for industrial and military environments, offering custom cable solutions .
- o Eurotray Metal Kablo Tasima ve Elektrik San. Tic. A.S: A Turkish company specializing in steel cable trays and management systems, capable of producing custom solutions .
- o Emit Metal: Leading Turkish manufacturer of metal cable trays, ladders, and trunking systems with a high production capacity and custom fabrication options .
- o ECTRAY: Offers a wide range of perforated, heavy-duty, aluminum alloy, and marine cable trays, with customization for industrial plants, precision machine rooms, ships, and offshore platforms .

Considerations for Custom Orders

When sourcing custom cable trays for North Korea, it is important to consider:

- o Material and durability: Steel, aluminum, and coated options for corrosion resistance.
- o Tray type: Ladder, perforated, mesh, or fully enclosed trunking systems.
- o Compliance and standards: While local standards may vary, international manufacturers often adhere to ISO, IEC, or EN standards, ensuring quality and reliability.
- o Customization capabilities: Ability to produce trays in specific dimensions, load capacities, and configurations to suit industrial or infrastructure projects. These manufacturers provide OEM and tailor-made solutions, making them suitable for projects requiring specialized cable management systems in North Korea .
